

Ahmad Bilal

Software Engineer

Bachelor of Commerce in Marketing & Finance, University of the Punjab (2019-2022)

Intermediate in Commerce, Leadership College of Network, Lahore (2011-2012)

CONTACT ME

## About Me

Motivated and enthusiastic individual with a background in commerce and a passion for technology. With a strong interest in the intersection of business and technology, I decided to pursue a degree in computer science to broaden my skill set and gain a deeper understanding of the digital world. Through my coursework, I have gained experience in programming languages such as HTML, Tailwind\_CSS, Javascript, Typescript, React and Postgress\_SQL, as well as database management, software engineering, and web development. I am excited to continue growing my skills and knowledge in the field of computer science and apply my unique perspective to solve real-world problems. As a team player with strong communication and problem-solving skills, I am confident in my ability to make valuable contributions to any organization.

### SOFT SKILLS

Active Listening

Effective Communication

Collaboration

### HARD SKILLS

气 Teamwork

💡 Creative Problem Solving

⌚ Time management

## PROFESSIONAL EXPERIENCE

### Front-end & Back-end Developer, PIAIC. (2023-Present)

I have several years of professional experience in software development, with a focus on web application development using TypeScript. I am proficient in TypeScript and have worked extensively with popular frameworks such as Angular and React.

### Full-Stack Developer, XYZ Corp. (2021-2022)

I am an experienced full-stack developer with expertise in both front-end and back-end development. I am proficient in various programming languages, including JavaScript, Python, and Java, and have experience working with a variety of front-end frameworks, including React, Angular, and Vue. Overall, my experience as a full-stack developer has allowed me to build robust and scalable software solutions that deliver value to businesses and users alike. I am passionate about staying up-to-date with the latest technologies and best practices in both front-end and back-end development, and I am committed to continuously improving my skills and knowledge to deliver exceptional results.

### Machine Learning Engineer, ABX Corp. (2019-2020)

Designed and implemented advanced machine learning algorithms to improve predictive accuracy and performance. Built and maintained scalable machine learning infrastructure using cloud computing platforms. Conducted data exploratory analysis to identify potential use cases and opportunities. Participated in regular code reviews to maintain high quality standards.
